

# DENYO EVENTA 60KVA DIESEL GENERATOR

The generator comes fitted with an environment base that prevents spillages and pollution, a sound proofed canopy to ensure minimal noise pollution and a pre-fuel filter separator to collect contamination from the fuel.

Denyo generators have over 70 years of heritage providing a reliable power solution for weddings, construction, rail, events, TV and film. The Eventa models are the quietest in the range and have both standout appearance and reliability.

A reliable 60kVA ultra-silent, diesel event generator. Environment base prevents spillages and pollution. Ultra silent operation at just 59dB(A) @ 7m and offering 17 hours of uninterrupted operation.

## Outputs

1 x 3PH 63Amp (415V) 1 x 3PH 32Amp (415V) 3 x 1PH 32Amp (230V)

Once again with this model, they are road towable and are delivered and installed by one of our highly trained technicians.
